

PISTOL SPECIAL USE REQUEST

I have been fully instructed in the WCW Range Safety policy and procedures and I understand them. I am fully knowledgeable in firearm safety and the safe operation of all the firearms I will be using. I understand that I am personally responsible for the safe operation of this range facility and will immediately take corrective action whenever necessary to insure that everyone on the facility is following all the rules and safety procedures. I understand that display of the current membership card is mandatory and I will ask anyone without a proper card and special use permission to leave the facility. I understand that I may not do anything other than that which the Committee has given me specific permission to do. Shooting birds and wildlife is strictly forbidden and will result in loss of all privileges.

TARGETS - I understand that I may use only the standard targets available through the club, that all targets must be taken down at the end of the shooting period, and that my target frame and shooting position will be left clean. I understand that all targets must be hung directly downrange from the shooting position and I will hang only 1 target on the frame. I will not shoot at anything other than my target.

BLACKPOWDER – I understand that using blackpowder requires additional knowledge and procedures due to the explosive nature of the powder. I understand that I need to have qualified with a large bore pistol or with the blackpowder pistol to be used.

CHRONO - I understand that I will only use a chronograph when I can do it without disturbing other shooters on the line. I will insure that all rounds shot through the chronograph sky screens strike the proper 50 yard impact area and will not damage any target frames.

RANGE SAFETY – I understand that all rounds will strike my target. If that is not the case, I certify that I will stop shooting and get help with my shooting technique or my equipment.

MEMBER HOURS - I understand that no noise will be made before 9:00 AM. I understand that every person who has permission to be on the property during member's hours will have a gate key in their possession and will be wearing a membership card. I will not admit others into the facility and I will ask anyone without a card to leave. I understand that Open shooting terminates with the closing of the Range Office or the arrival of scheduled league shooters.

I request the following (circle each privilege separately)(fill in the required blanks):

PISTOL Range (Requires Qualification – show qualification card) Chrono BlackPowder

Qualified: caliber _____ position _____ qual-date _____

I understand that the approval of this request is not a right of membership, but a privilege granted, and I will do all that is expected to retain this privilege, including supervising the ranges and helping on work parties. I also understand that the Rangemaster on duty or a Club Official may restrict any or all these permissions at any time.
